

Description

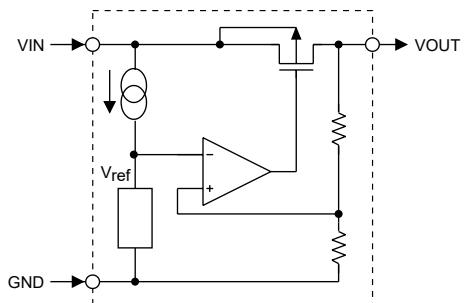

The LB75ALXXSQ series is a set of three-terminal low power high voltage regulators implemented in CMOS technology. They allow input voltages as high as 36V. They are available with several fixed output voltages ranging from 2.8V to 5.0V. Because of the low power dissipation, LB75ALXXSQ are widely used in a variety of equipment such as audio device, video device, communication device and so on.

SOT-89

1.GND 2.VIN 3.VOUT

Block Diagram

Features

- ◆ Low power consumption
- ◆ Low voltage drop
- ◆ Low temperature coefficient
- ◆ High input voltage (up to 36V)
- ◆ Quiescent current : $2.5\mu\text{A}$
- ◆ Output voltage tolerance: $\pm 2\%$
- ◆ HAF(halogen and antimony free) is acquired

Selection Tablet

LB75ALXXSQ

Designator	Symbol	Description
XX	28	2.8V(output)
	30	3.0V
	33	3.3V
	36	3.6V
	40	4.0V
	44	4.4V
	50	5.0V

LB75ALXXSQ Series Low Dropout Regulators

Absolute Maximum Ratings^{Note1}

Ratings at 25°C ambient temperature unless otherwise specified.

Parameter	Limit	Unit
Supply voltage	-0.3 ~ +36	V
Storage temperature range	-50 ~ +125	°C
Operating temperature range	-40 ~ 85	°C

Note: 1. Stresses beyond those listed under absolute maximum ratings may cause permanent damage to the device. These are stress ratings only, and functional operation of the device at these or any other conditions beyond those conditions is not implied. Exposure to absolute-maximum-rated conditions for extended periods may affect device reliability.

Parameter	Symbol	Value	Unit
Junction-to-Ambient Thermal Resistance	$R_{\theta JA}$	200	°C/W
Power Consumption	P_D	500	mW

Electrical Characteristics

LB75AL28SQ($T_A=25^\circ C$)

Parameter	Symbol	Test conditions	Min.	Typ.	Max	Unit

Device	Package	Shipping
LB75ALXXSQ	SOT-89	1000PCS/Reel&Tape

Conditions of Soldering

◆ Recommended condition of reflow soldering

Recommended peak temperature is over 245 °C. If peak temperature is below 245 °C, you may adjust the following parameters:

- Time length of peak temperature (longer)
- Time length of soldering (longer)
- Thickness of solder paste (thicker)

◆ Conditions of hand soldering

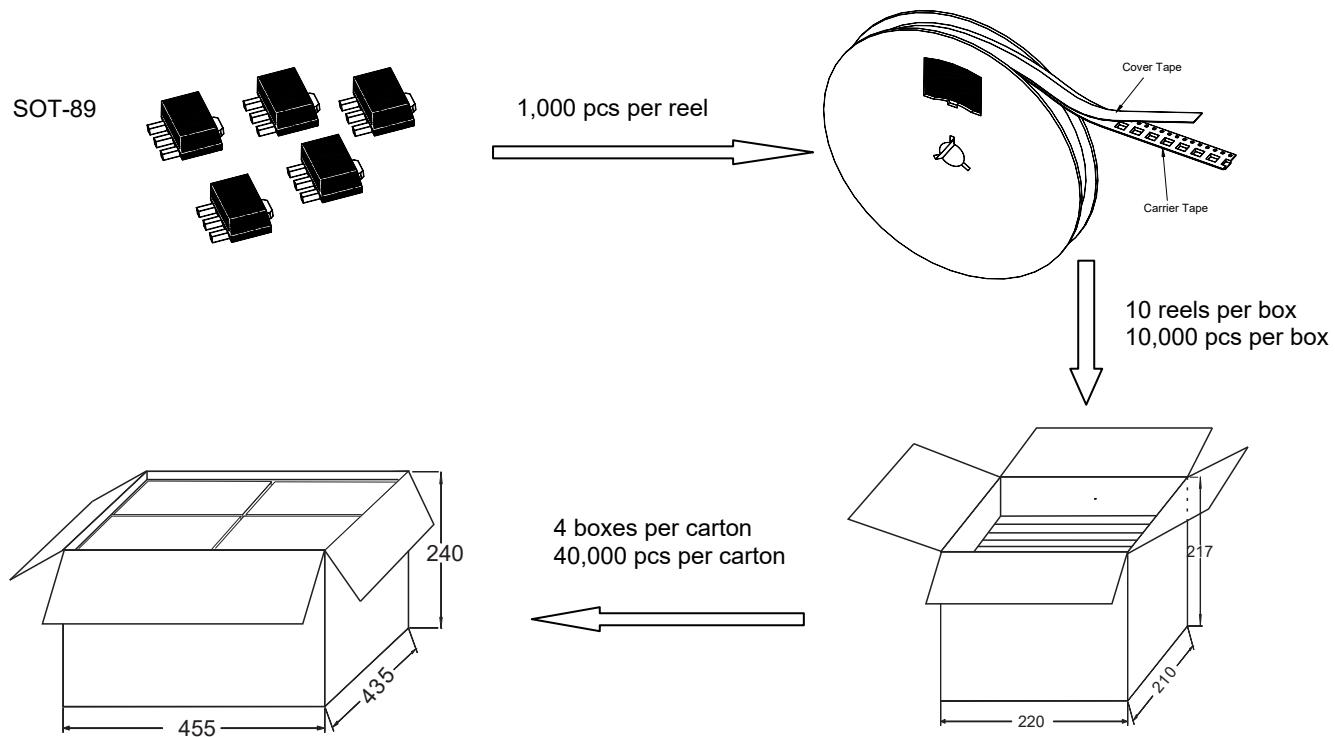

- Temperature: 370 °C
- Time: 3s max.
- Times: one time

◆ Storage conditions

- **Temperature**
5 to 40 °C
- **Humidity**
30 to 80% RH
- **Recommended period**
One year after manufacturing

Package Specification

The method of packaging and dimension are shown as below figure.
